Ventura Bonneville Pannier System.

Soft Pannier System

Many soft luggage systems have straps that hang over seats, can slide down and get caught on exhausts or worse, in the rear wheel. The new soft Pannier System from Ventura elegantly makes those hassles a thing of the past.

This new system features two large 24 litre bags that slide onto the specially designed racks and in some cases can be used to compliment an existing Bike-Pack System or as a standalone fitment. The panniers are quick to fit and feature a unique sleeve that ensures the luggage is held firmly in place.

Fitments include current model : R1200R, S1000XR, CRF1000L, Ninja 300R, Ninja 650, Versys 650, Vulcan S, Z1000, Brutale 990R & 1090R, GSF & S Bandits 1200/1250/650, GSXR650/700, GSX1250FA, GSX650F, Triumph Street Twin.

The Bonneville Pannier System is currently available for select current models.

For fitments go to www.kenma.com.au, call 02 9484 0777 or speak to your sales representative.

The Bonneville Pannier

The Bonneville Pannier Bag is the latest innovation from Ventura and works with the Pannier Support System. The bags are a new soft pannier system that allows for super quick fitment with a bag that won't flap or rub on your paintwork.
