NEW **EVO** RANGE FROM VENTURA

THE **EVO** EVOLUTION OF THE VENTURA BIKE-PACK SYSTEM

Introducing the EVO Sports range to the Bike-Pack motorcycle luggage system.

Consisting of the all new versatile and adjustable EVO-Rack, EVO-40 and EVO-10 packs.

The EVO-Rack is sleek as it has no high "loop" to match the lines of any motorcycle it is fitted to better, compatible with all Ventura "L Brackets" EVO features the new adjustable mounting system allowing the EVO-Rack to be mounted in 4 positions on the same bike depending on the bike and the rider's preference.

The two new packs, the EVO-40 and EVO-10 are designed to specifically fit with the EVO-Rack using a similar pocket fastening system that holds the pack securely.

The EVO-40 is the larger pack with a substantial 40 litre capacity, while the EVO-10 is geared toward commuting and day riding with its 10 litre capacity. Both packs are engineered and manufactured using a waterproof and durable laminated ballistic fabric to ensure the long life of these quality Ventura packs.

The EVO range will be sold as complete model specific systems with mountings to fit well over 2000 bike models, including machines dating back into the 70s. EVO Packs and Rack will also be available as "UNI" kits for bikes already fitted with Ventura L Brackets.

This addition of the EVO range to our Ventura Bike-Pack System means Ventura customers have even more options when it comes to choosing motorcycle luggage. The Bike-Pack system has been produced by motorcyclists for motorcyclists for over 30 years.
