Ventura Bike-Packs and Luggage Systems now available to suit the **HONDA CB500R and CBR500R 16-17**

The light, stable and incredibly versatile Ventura Aerodynamic Bike-Pack is now available for the Honda CB500R and CBR500R 16-17.

The key to the Ventura system is the L-Bracket, which is made to measure to fit each model of bike and custom designed to complement the unique styling of each motorcycle.

Once fitted with L-Brackets, the Honda CB500R and CBR500R 16-17 will accommodate a range of luggage options via the Astro Top-Box, Sport-Rack, Pack-Rack or Grab-Handle. The Ventura system allows up to 102 litres of luggage carrying capacity with two Aero-Spadas zipped together all the way down to the 10 litre Sport-Pack.

Ventura's unique rack system ensures that the load won't shift, even during hard riding while the positioning offers excellent stability and as it is directly behind the rider gives much greater manoeuvrability in traffic – and less wind resistance on the open road compared to traditional pannier systems.

These two new fitments join an impressive line-up that see the Ventura Pack-Rack system available for over 2000 different motorcycles.
