Press Release 01/02/2008

CARGOL PUNCTURE REPAIR SYSTEM,

Approved by German road transport authority the TÜV!

Emergency Tire Repair Kit's Approval, Cargol Turn&Go Model.

Gryyp Line has earned the prestigious TÜV Certificate for its patented product Cargol turn & go.

One more step in the safety and reliability of the product.

*In the absence of specific regulations or licenses for this type of product, Gryyp Line had made a **voluntary** technical test supported by the TÜV Rheinland Group International, SL experience.*

Cargol turn & go was tested with cars and scooters on the road, highway and closed circuit IDIADA.

The tire did not have changes or significant air leaks at any time.

TÜV certifies that we had a successful test. The product achieved all the expectations desired by Gryyp Line, SL.

We can assure that our product is the safest option as well as simple, easy and reliable of the market.

Besides, this is the only one that you could carry at your key ring!"

Best regards, Peter Lucas.
