
Press Release – 17th March 2004

Introducing Avon's AM42 rears for Metric Cruisers.

AM42 Venom-X cross-ply 200/70 H15, 170/80 H15 wide whitewall and 150/90 B15 wide whitewall. Avon has recently expanded its range of the venerable AM42 Venom-X series tyres to include new rear fitments designed for the latest metric cruisers from Japan. These tyres add to the existing AM21 230/60 H15 and AM42 blackwall rears. Caution: Do not use radial front tyres with cross-ply rears.

Famously capable rear tyres designed to compliment the excellent AM41 Venom fronts. These tyres will work brilliantly on your metric cruiser and feature:

- Special low-noise tread patterns
- Great cornering stability
- Progressive turn-in
- Low rolling-resistance design for long life.

Pricing
