
Press Release – 20th May 2005

Ventura is proud to release individually designed, top quality Bike-Pack System kits and LightGuard headlight protectors for some of the latest 2005 model bikes available. Please note that this list contains new 2005 model fitments only—many other current model bikes are identical to previous year models, too, and enjoy previous model year fitments from Ventura.

Ventura's Bike-Pack System kits are designed to maintain your bike's handling while giving you excellent load carrying capacity. They also offer a range of accessories including grab handles and sports racks. The bags are available in several sizes, have numerous handy features, and are made from super tough Kodra material. The LightGuards are made from impact resistant Zykalon CStm material and will protect your expensive headlights.

BMW

K1200S* 05

Cagiva

650 V-Raptor 05
1000 Xtra-Raptor 05

Harley-Davidson

VRSCR Street Rod* 06
