## Press Release – 28<sup>th</sup> April 2003

---

**Ventura** has launched a range of its famous Bike-Pack System luggage kits for 2003 Harley-Davidson FX Softail and Dyna models. These kits have been specifically designed to complement the look of your Harley with a top class high chrome finish and also feature a clever attachment system for super fast removal. In fact, you can completely remove the entire luggage system from your bike in around 30 seconds! Now you can have the convenience of a top quality luggage system for your Harley that can also be removed in a jiffy for maximum street cred.

Ventura's Bike-Pack System kits are designed to maintain your bike's handling while giving you excellent load carrying capacity. They also offer a range of configurations including grab handles and sports racks. The packs are available in several sizes, have numerous handy features, and are made from super tough Kodra material.
